

TECHNICAL DATA SHEET

DOUBLE DRY Pure Isopropyl Dry Gas

DESCRIPTION: Double Dry is a pure isopropyl alcohol dry gas that removes up to 10 times more water than cheaper methanol alcohol. Double Dry allows the water to mix with the fuel and be burned in the normal combustion process. Double dry is safe for all types of fuel systems where as methanol has been criticized by major auto manufacturers. Use Double Dry in cold weather to prevent frozen fuel lines or any time to remove harmful moisture caused by condensation. Double Dry also contains a rust inhibitor to protect the fuel system while it removes moisture.

USES: *Automobiles *Diesel Engines *Marine *Snowmobiles
*Snowblowers *Fleet

DIRECTIONS: Always add before filling tank. Cars: one 12oz bottle treats 20 gallons. 4-Cycle: add one ounce for each gallon of gasoline. Diesels: add 2 to 4 bottles per saddle tank (approx. 50 gallon).

PACKAGING: 12 oz 24/case 15 gallon drum
5 gallon pail 55 gallon drum

STORAGE: Do not expose to heat or store at temperature above 120°F.

SPECIFICATIONS:

Color	clear	Specific Gravity	.7861
Flash Point	53°F	Cleaning	N/A
Effect on Paint	none	Odor	alcohol
pH	5	Density	2.07
