

TECHNICAL DATA SHEET

MUSCLE GREASE Penetrating Red Grease

DESCRIPTION: Muscle Grease takes over as a lubricant where lithium and calcium grease leave off. The aluminum complex base of Muscle Grease enables it to excel in heavy load, extreme pressure situations and over a wide range of temperatures (0° F to 350° F) without melting, hardening or thinning. Being 100% waterproof, it also resists water washout. Muscle Grease is also resists corrosion from acids, alkalis and salt. A unique feature is that Muscle Grease sprays like a liquid, to penetrate, and then sets up like a durable grease.

USES: *Fifth Wheels *Electric Motor Shafts *Hinges
*Cables *Pulleys *Piano Hinges

DIRECTIONS: Shake the can well. Spray evenly on the surface to be lubricated and let set. Use extension tube for pin-point application.

STORAGE: Store below 120 ° F.

PACKAGING: 16 oz 12/cs

SPECIFICATIONS:

Color	Red	Odor	Solvent
Phosphates	None	pH	N/A
Specific Gravity	N/A	Density	Heavier Than Air
Flash Point	20°F	Freeze Stable	Yes
Effect on Paint	None		

PRODUCT #: C1606
