

## TECHNICAL DATA SHEET

### TC-8

#### Automatic Transmission Condition Sealer

**DESCRIPTION:** TC-8 is a special blend of additives that assure cleanliness and lubrication of vital parts. TC-8 works eight ways to clean, lubricate and prevent leaks. TC-8 stops wear to prolong transmission life. When transmission is changed 1/3 of the old fluid is left in the torque converter. To keep this fluid from contaminating the new fluid, treat with TC-8.

**USES:** Any automatic transmission - as preventive maintenance.

**DIRECTIONS:** Add when transmission is new. Retreat when fluid is changed or on about 35,000 miles. Vehicles towing boats on trailers should be treated at 10,000 mile intervals.

**PACKAGING:** 8oz                      24/case

**STORAGE:** Rotate stock.

#### SPECIFICATIONS:

Color	dark	Specific Gravity	.93 @ 15.6°C
Flash Point	130°F	Effect on Paint	N/A
Odor	solvent		

**PRODUCT #:** C0825
